

CLAIMS:

- 1
2 1. A play activity set comprising
3 target means,
4 at least one object for throwing at the target means,
5 the target means and the at least one object made from
6 box material from at least one box,
7 the at least one object is flat and comprises a flying
8 disc, the flying disc comprising
9 a disc body having an outer perimeter and
10 a plurality of portions of the disc body folded from
11 the disc body around the outer perimeter.
- 1 2. The play activity set of claim 1 wherein the at least one
2 box is a single box and the target means and the at least one
3 object are from said single box.
- 1 3. The play activity set of claim 2 wherein
2 the single box is suitable for containing a pizza.
- 1 4. The play activity set of claim 1 wherein
2 the target means including at least one target opening in
3 said at least one box.
- 1 5. The play activity set of claim 2 wherein the target means
2 includes at least one target opening, and
3 the at least one target opening is in said single box.
- 1 6. The play activity set of claim 1 wherein
2 the at least one object is a plurality of objects.
- 1 7. The play activity set of claim 1 wherein the at least one
2 box has at least one stabilizing portion formed of the at least one
3 box and projecting therefrom.
- 1 8. The play activity set of claim 7 wherein
2 the at least one box has an opening therethrough for
3 receiving a stabilizing portion of the at least one box, and
4 the at least one stabilizing portion of the at least one
5 box projects through the opening.

1 9. The play activity set of claim 4 further comprising
2 the at least one box having two box parts, one part
3 foldable over on the other part, the at least one target opening in
4 one of the box parts,

5 at least one stabilizer portion partially separated from
6 one of the box parts opposite a box part with the at least one
7 target opening,

8 the at least one box having a stabilizer opening
9 corresponding to each of the at least one stabilizer portion,

10 a part of the at least one stabilizer portion extending
11 through the stabilizer opening.

1 10. The play activity set of claim 1 wherein

2 at least one target part is removed from the at
3 least one box and said removal forming a target opening
4 through the at least one box, and

5 the at least one object comprises at least a portion of
6 the target part.

11. The play activity set of claim 1 wherein
the at least one object has indicia thereon.

12. The play activity set of claim 1 wherein
the indicia is scoring indicia.

13. The play activity set of claim 1 wherein
the at least one object has two opposed surfaces each
with indicia thereon.

14. The play activity set of claim 13 wherein
the two opposed surfaces include two surfaces at least
one of whose indicia is scoring indicia.

15. The play activity set of claim 1 wherein
the at least one object is a plurality of objects, and
each object has indicia thereon.

16. The play activity set of claim 15 wherein
the indicia includes scoring indicia.

1 17. The play activity set of claim 1 wherein
2 the target means comprises at least one item separated
3 from a box, said at least one item able to be knocked down by a
4 thrown object.

5 18. The play activity set of claim 1 wherein the flying disc
6 further comprises

7 a plurality of cuts spaced-apart around the outer
8 perimeter of the disc body,

9 at least one portion of the disc body between at
10 least one pair of the plurality of cuts, said at least one
11 portion folded at an angle to the disc body.

12 19. The play activity set of claim 1 further comprising
13 a plurality of secondary objects removed from the at
14 least one object.

15 20. The play activity set of claim 19 further comprising
16 the plurality of secondary objects comprising a plurality
17 of throwing discs.

18 21. A play activity set comprising
19 target means at which at least one object may be
20 directed,

21 at least one object for throwing at the target means,
22 the target means and the at least one object made from
23 box material from at least one box,

24 the at least one object is flat and comprises a flying
25 disc, the flying disc comprising

26 a disc body having an outer perimeter and a
27 plurality of cuts spaced-apart around the outer perimeter,

28 at least one portion of the disc body between at
29 least one pair of the cuts, the at least one portion folded at
30 an angle to the disc body.
